

Work-Phones is the direct sales division of Solwise Telephony Limited

SOLWISE PRICES FOR NON GEOGRAPHIC SERVICES.

These numbers all begin '08XX' are called non-geographic because they can be 'pointed at' any existing UK telephone number.

The number is not installed as a new line like standard telephone numbers, but is allocated to a user for use in marketing campaigns and other promotional events.

The user then tells Solwise which of their existing numbers the non-geographic number is to be 'pointed at'.

If a customer is routing their existing telephone calls via the Solwise service there is no setting up charge or monthly rental for these Non-Geographic numbers. If these numbers are supplied as a 'stand alone' service and no call data is required, then the service is also free.

If 0845 or 0870 numbers are supplied as a stand alone service and call data is required, then there is a monthly rental of £7 for the first number and £2 for each additional number.

0800 & 0808 numbers are used to encourage customers to contact a business or to 'make that call'. The caller pays nothing (freefone) and the business receiving the call pays for the call. The cost to receive the call depends on whether the call is 'pointed at' a land line or a mobile.

0845 numbers cost the caller the local rate at all times from anywhere in the UK, and the company receiving the call pays nothing provided the call is received on a land line.

If a company moves, or wants to change the number the non-geographic is 'pointing at' then this can be done with around 6 working hours notice.

Specialist services including routing of call to different destination numbers depending where or when the originating calls is made are also available - please ask for details.

It is also possible to route calls made to these non-geographic numbers to mobiles, international destinations, etc. Please ask for details if this is required.

Non Geographic number type	Tariff name for reference	Prices charged to customer by Solwise to receive the call (per minute).		
		Day	Eve	W/end
Freecall 0800/0808 to land line number	Solwise Freecall 0808	3.9p	3.9p	3.9p
